### Forsyth Barr Commentary

Travelling Well: Serko (SKO) retained its status as a Fast Follower in this year's C&ESG ratings. While SKO again scored well in the Social and Governance pillars, weak Carbon and Environmental scores continue to hold it back from achieving a higher rating. Lower scores in the Carbon and Environmental pillars are not unsurprising, given carbon and environmental issues are often less material for technology companies (which is reflected in our weightings). Nevertheless, we expect SKO to improve with time as it builds a history of relevant data.
